

CHRISTMAS 2019

This year,

21° year with Amref

chooses to sustain Amref's project "SMART"

Capp Plast will contribute to build an environmentally sustainable well with solar-powered pumping in Ethiopia. The realization of this well will make the difference in the lives of about 3,500 people saving them from thirst, from hunger, from the unequal condition of not having easy access to clean water.

NON AIUTATECI PER CARITÀ

Merry
Christmas!
